Skills

- HTML | CSS | Bootstrap | JavaScript | React
- C | Python | Flask | Flutter | SQL
- Open Source | Docker | Git | GitHub | CI/CD

Experience

App Developer	SDC [Android]	09/2023 - 01/2024
<ul style="list-style-type: none">• Member of Software Development Cell [Android] in GEHU, Haldwani.• Building full stack apps in flutter.		
Volunteer	GDSC	12/2023 - 10/2024
<ul style="list-style-type: none">• Volunteer at GDSC GEU (currently GDG).		
Contributor	OpenCodeEra	10/2023 - 06/2024
<ul style="list-style-type: none">• Contributor at OpenCodeEra.• Contributed at frontend part of a website using HTML, CSS, JavaScript and Bootstrap.• Reviewed other's pull requests, code, and changes.		

Education

Bachelor of Technology	<u>Graphic Era Hill University</u>	<i>Haldwani, UK, India</i>	08/2023 - Current
<ul style="list-style-type: none">• Major in Computer Science Engineering			

Projects

- **codehub**: Alternative of GitHub (HTML, CSS, JS, Python, Flask, MySQL). Link to [Project](#) / [GitHub](#). **(04/2022 - 12/2022)**
- **cbse-result-finder**: A Bot that automates the process of finding results of CBSE Board (Python, Selenium). Link to [GitHub](#).
- **codein**: Clone of LinkedIn (HTML, CSS, Bootstrap, JavaScript, Python, Flask, PostgreSQL). Link to [Project](#) / [GitHub](#). **(05/2023 - 06/2023)**
- **Attendance App**: A Flutter-based mobile app that uses Bluetooth to mark attendance without internet. It's cross-platform, user-friendly, and ideal for offline environments. Link to [GitHub](#). **(09/2023 - 02/2024)**
- **binarycss**: A lightweight, modern CSS framework I built for my own projects that's now ready to share with the world. Responsive, clean, and no unnecessary bloat. Link to [Project](#) / [GitHub](#). **(04/2025 - 06/2025)**
- **daamusic**: A lightweight Python CLI to stream YouTube music using `mpv`, built as a PBL (Project-Based Learning) project for the DAA (Design and Analysis of Algorithms) course. Link to [Project](#) / [GitHub](#). **(02/2025 - 06/2025)**
- **doshost**: DocHost, a PBL project on Virtualization and Cloud Computing and a self-hosted web app that works like Google Drive, but stores your files directly on your own hard drive. It gives you complete control over your data with a familiar, cloud-like interface—without relying on third-party storage. Link to [Project](#) / [GitHub](#). **(04/2025 - 06/2025)**
- **kaalpass**: A secure, time-based solution that automatically changes your Linux system password daily and syncs it with an Android app for convenient access. Link to [Project](#) / [GitHub](#). **(05/2025 - 06/2025)**
- **ilearn-eslide-downloader**: Tool that extracts and downloads password-protected iLearn eSlides from GEHU. iLearn eSlide Downloader is a browser extension that helps students securely unlock and download password-protected PDF slides from the iLearn portal at GEHU. Link to [Project](#) / [GitHub](#). **(06/2025 - 06/2025)**

Others

- **Completed Hacktoberfest 2023**: Completed Hacktoberfest 2023 before 16th of October. Link to [LinkedIn Post](#). **(10/2023)**
- **Gold Award**: Winner at CodeNova [Coding] Round organized by TechGeeks Club, GEHU, Haldwani. Link to [Certificate](#). **(08/2023)**
- **Volunteer**: Volunteer at the Engineer X 2.0 organized by Tech Geeks during 17-21 September 2024. Link to [Certificate](#). **(09/2024)**
- **Hackathon Participation Certificates**:
 - **24 Hour Hackathon** at GEHU, Haldwani. Link to [Certificate](#). **(11/2024)**
 - **Build for GEHU 2025 (24hr) Hackathon** at GEHU, Bhimtal. Link to [Certificate](#). **(04/2025)**
 - **TechSprint (48hr) Hackathon** at GEU, Dehradun. Link to [Certificate](#). **(04/2025)**
